# All-in-one reservation system

The reservation system experts

Our **innovative** accommodation reservation system is designed to be really **easy to use** and is packed with all of the features you need to run a successful accommodation business. Our services are suitable for all property types, including B&Bs, motels, hotels, self-catering, homestays, farmstays, backpackers and even

Totally FREE online booking

Our fully featured online booking system is **TOTALLY FREE** . Not only is it **commission-free**, but there are **NO** additional or hidden charges to pay on bookings!   Just get your web developer to cut and paste our booking widget onto your website and you can be up and running in minutes.

Online booking features

Our innovative online booking service is feature-packed and supports multiple rate plans, special offers, minimum stays, weekly rates, advance rates, add-on purchases and a whole host of other features to turbo charge your bookings and dramatically increase your overall profitability.

You can easily customise our online booking service to fit your own website design. You can even use this service as your own website if you haven't got one already.

Property management system (PMS)

Our property management system (PMS) incorporates a built-in **channel manager** that connects to all of the key online travel agents (OTAs) and booking systems.
Our highly configurable **booking sheet** makes it easy to do everything from one place, including moving reservations, extending stays, blocking rooms, group bookings, fine-tuning rates and restrictions etc.
With comprehensive system reports the system gives you all of the key information to make informed decisions about your business.

Maximise profits & minimize commissions

Advanced system features

Our system boasts a huge array of advanced features such as multiple rate plans, seasonal rates, special offers, allocations, virtual rooms,booking restrictions and a whole lot more.
Our innovative rate and commission management features makes it stunningly simple to control your rates/profitability. Our **dynamic rates** feature automatically adjusts your rates as your rooms are sold. **Intelligent minimum stay** ensures that all your rooms are bookable at all times.

Payment Management

We offer a choice of payment gateways to fit your business needs:

Other Interfaces

freeonlinebooking integrates with many financial management packages, revenue managers and room lock management systems via our open API system.

Channel Management

Our built-in channel manager updates all the major accommodation booking websites (OTAs) and GDS travel agent systems. Unlike many of our competitors we do not charge any additional booking fees or commission on top of those charged by the channel. Our innovative **commission management** feature makes it very easy for you to control the exposure of your rooms online and used properly can save your business considerable sums of money on commission.

We are book direct champions!

We help your business adopt a #BookDirect strategy to encourage guests to book direct with you. This helps you avoid the high commissions charged by the Online Travel Agents (OTAs); you also have much more control of your business and will enjoy a more direct relationship with your customers.
